Dear Madam:-

Replying to your favor of the 30th ult. would say there is nothing in the way of fertilizers that is so good for the lawn as Bone Meal and we would suggest your applying same at the rate of about six hundred pounds to the acre. We do not offer fertilizers of any kind and think you would have no trouble in procuring what Bone Meal you desire from your nearest hardware dealer.

Very truly yours, W. ATLEE BURPEE & CO.,
