Wednesday p.m.

D. Madigan Esq.,

Mayville, N. Y.

Dear Sir:

I went to see Dr Belknap yesterday about ordering my coal supply for the furnaces for the coming winter, yesterday, and was surprised to learn that I was a few days behind hand as he said to get coal at the cheapest rate, I should have given the order in April. I did not know this, and I hope in consideration of the large amount I must order--30 tons--that you will still give me the lowest rate. I lost not a little by taking the 10 tons of stove coal for my furnaces from you last winter, and I trust you will make it right by giving me the lowest rates for this order. I would like it delivered as soon as possible in the summer and will pay cash down for it.

Please let me hear from you.

Very truly yours,

E. K. J.
