Mayville, N. Y. August 10th, 1908.

Monday a.m.

Dear Prof. Swain:

Please excuse me for troubling you with a personal matter, in which perhaps you can assist me.

We have decided not ever again to rent the upper apartment in the Thorheim opposite our own but have furnished it and could rent rooms to teachers, if desired. There is one large bedroom with a double bed and cot; another communicating with it, having a single bed, so could accommodate three, possibly four ladies. They could have the use of the large sitting room in common, also the bath room. I could not furnish meals, unless possibly a light breakfast. The rooms are all well heated by the furnace, lighted by electricity and would have plenty of hot as well as cold water in the bath room.

Should you have any inquiries for such accommodations, I should esteem it a favor if you would refer to me.

It occurs to me that these rooms would be very pleasant for such occupants, as they are as you know all fresh and new.

Thanking you in advance for any trouble you may take in this matter, I am,

Sincerely yours,
