Dear Mr. Tourgee:

Your inquiry led me to climb to the dusty loft and to open a box containing the archives of J.H.M. where I found a figure of the man fishing. It is wrapped ready for shipment. Shall I send it on to you or is it wanted in N.Y. City?

Your article in the Buffalo Express was not brought to my attention or should have read it. I helped to organize a Yacht Club in East Orange prior to the Chicago convention & gave some attention to the campaign as it progressed.

Mrs. Hulbert is in fair health this winter but suffers whenever the Grippe comes round. Hazel is in bed with nerves & influenza, but we hope she will be up again soon. I keep pretty well by smoking moderately & going out nights to the point of dissipation.

With best wishes
Sincerely,
Geo. S. Hulbert
