Meadville. Penn.

My dear Mrs. Tompkins-

The arrival of the dainty  
slippers was like magic - I had  
only just heard of them when  
they were here, and I thank  
you both most heartily, and  
am glad to report that they  
fit perfectly.

Of course L. di did beautifully

here, but it was hard to have  
her suffer so. I was so glad  
to have her here where she  
would feel at home and I  
could give her some care.

She is so brave and patient,  
but I trust she may not be  
called upon to display these  
special qualities in this way much  
longer and that she may have  
speedy and permanent help from  
"Bone setter Rees." Sincerely yours, Wm. W. Lord.
