Dear Madam:-

Regarding Gasoline Range which you sent to us for repairs,
beg to advise you that we find it necessary to send to the factory for
some parts of this range to replace parts that have given out therefore
it will probably be a week before we will be able to return the range
to you. We send to St. Louis for these repairs and it will take several
days to get them.

Yours respectfully,

Clark Hardware Co.,

Per. *Geo. B. Pitts*
