Dear Madam:

I have seen description of your farm to rent in the New York State list of farms bulletin and write to ask how near ^{the house} it is to neighbors.

I am a young woman, a private secretary in New York City, and I have a young woman friend who is a school teacher. We were both brought up in the country as children and we want to return to the country and raise chickens. We realize your farm is more roomy than we need. Still we should be glad to hear if it is near neighbors and also of the other house and lot which you have to rent.

Thanking you for any information,
Yours very truly
(Miss) Inez J. Gardner
