

Mablehead. Mass. July 31- 18 -

My dear Mrs Touzer:

I am here at last and find the enclosed Ms and letter awaiting me, & as I do not know any good magazine with which I am influential I return the Ms. and letter to you & I am not at all sure the Post Express of Rochester might not like what you have written

Still what you have written
is so much more interesting
and valuable than is
most of the stuff with
which the magazines are filled
that I should think
some of them would
be glad to get it
They pay more for news than newspapers &
But then my judgment
in such matters may
not be good & in other
words my taste and that

of the great unthinking public
are not the same, & I never
could see why the public
did not appreciate the
magnificent magazine into
which the Judge put his
hard earned dollars, & I think
he was just ahead of his
time a quarter of a century;
that today it would succeed,

I hope you will put
down some more things as
you feel like it, I wish
the Judge's life, and your
great part in it, could be
put into a volume to go
with his works, But your
health comes first: so do not
work, except when you ^{feel} like it;
With best wishes to all
Your friend. Adeline Mearns
