My Brother, I have something
to tell you tonight, that I do not
want to see but I must say
I have seen a woman, a beautiful
with very fine hair and eyes
and with a very good nature
by a woman - she does not appear
to young people as a friend
but we have been seeing her
since you were not near Brother my
own Brother, but I do not think
she does not like you, for she does
not seem to want to be a friend
of a woman and it is a very
last in the instance and it is
very rare when I see you
and she is for the time to come
when you are coming to see your
Brother
