

Franklin, N.C.

July 28th 69

Dear Sir

Your letter of the 26th

claiming in reply to mine of the 22nd that you would accompany me in my journey, but denied the

claiming a copy of the papers that you wish me to take with you to all matters of procedure and

in fact, you have placed in a box a bundle of books and papers and

sent it to me by the train. I have compared the two and am somewhat

satisfied as to their contents. I have in what you have sent me, no difference all

except in regard to the bringing of suits, which before the war

and ~~some~~ ^{some} ~~returnable~~ have been settled by the Supreme Court and then in the only point that

you were of opinion which is settled. This fall Term by agreement the same judgments in plain cases are to be taken - the old stay

and different acts of the Legislature from time to time. Compared

as the plain land should be
 raised and no confusion of
 the suits when a time should
 be provided upon which the
 country, without a valid
 reason, the bar with an amount of
 ground of compromise, agreed to
 the judgment to be entered. There
 is a great deal of ground in
 all probability, in fact, of what
 is the same as a small unit
 of land in a large tract of
 land. I think you would find
 it difficult to find. If you
 wish to see a map of the
 land and to hold it, you
 will do well to see for you
 in a few days, but time, and it is
 in a particular situation
 and must be done in that
 case, we to ask an exchange
 of land as soon as you are
 in a position to negotiate an exchange
 of the land and the same difficulty
 it will exist with them as with you
 and you know how to hold on
 to a piece of land of this
 kind under the deed, the
 survey. I can say that the
 law and decisions are not authori-
 tive and we all have to rest on

In answering. I do not know
what one of the Judges agree with
me. They may all differ with me
or differ among themselves, and
none agree.

hoping that we do
not differ as the great principle
of Law and that justice is
the main point to be arrived
at and our aim to administer

I am
Yours
Respectfully
Wm. H. Miller
