Dear Sir

Having formed your acquaintance on the P. & E. R. R. between Philadelphia & Erie in August last and you at that time promised to offer to me any information you could in regard to the financial condition of W. C. I take the liberty of writing to you and ask you to give me the result of the Law suit that has been recently decided at Harrisburg in regard to the constitutionality of the Special Tax Bonds. I have been sensible from the reports that I have seen in the papers to learn what the question at issue was or what the decision of the Court was. Will you please refer me on the matter & oblige - Please give my regards to my Cousin Ned Damschiff if you should see him. There is nothing new with us except the tightness of the money

market which has been decidedly down,
since the Parisian is sent. Although the
banks report matters rather serious
it is rather difficult to see the movement

and so
