

Maggot - small black beetle  
 at the end of the  
 Great variety  
 of various P.A.

The first of these  
 was found in the  
 soil of a garden  
 near the house  
 and was very  
 common in the  
 soil of the garden  
 near the house  
 and was very  
 common in the  
 soil of the garden  
 near the house

H. C. Lamb Esq  
 Dear Sir

I am sorry that we could  
 not send you the money that I promised to  
 send you on Wednesday but it has been utterly  
 impossible have been looking for money every day  
 this week but it has not arrived will send you  
 just as soon as we can

Yours Respectfully,  
 Henry Skilly  
 for H. C. & Co
