Wool of 1000 lbs

is to hand & in reply would say that we were very much obliged that Judge Phillips & Co would of taken the wool as we could have shipped them order of wool & was not prepared to make that handle. However you can say to them that we have gone to work on the order & will keep one lot on it until it is complete we will have to get up a thread especially for that pattern & will do so at once & will get it done as soon as possible we will send you a lot of Pick & Sleds this week you will notice in the last shipment we sent you some Pick and the way we are grading now they are just as good as the Pick you will find them so  
 Yours Respectfully
