It is understood you have
 continued making handles - and thought it
 advisable - as much for your interest as ours
 to inform you of the advance in the price of
 handles etc. We enclose you our new list which is
 not cost 10% not allow any of the dealers to
 make you believe that handles are any lower
 all the manufacturers are raising prices -
 W. Watson has out a new list the same as ours
 Caruak is going to get out one about the same - and
 W. Watson told me this morning that MacLennan had written
 he was going to advance prices

Yours Really
