Thos Shuttle Co
Forest Devon
Guillemen

We reply to yours of 1st
w h will say — We have had persons from
Seattle who are selling out timber for us to
cut shuttle blocks but find and enquiring that
they have done nothing — We cannot ask them
as it is all we can do to attend to our
handle business — You had best not depend on
us for blocks as all we sell but some for
you will send them — We cut out a lot of the
23" ones but found on inspecting them that there
is not one good block in the lot — They are
very one twisted so that they must not a shuttle
