

MORRISON & DINSMORE, PRODUCE AND COMMISSION MERCHANTS,

AND DEALERS IN

Grain, Provisions, Seed, &c.

Free, Pa., March 24 1874

Dear Sir,

I see by the New York
 Papers that there has been a considerable
 advance in N.C. State Bonds of all
 kinds but more particularly on new
 Bonds within a few weeks past and
 would like to know if there was any-
 thing to back the advance or is it
 a mere jobbing operation of the N.Y.
 Broker. I also see that Belmont has
 commenced proceeding to convert the
 long term bonds into the short term
 and also to cash bonds, from what I hear
 that the wilds in this country
 are so barren they might be a great
 source of revenue.

Will you please give me a
 price for N.C. Bonds and the Western
 A.A. and ...

but now the most of the best of
I also have now what I take is becoming
& the present for me, from for the other
in your letter to me & some months
since you did not mention the time
necessity of the operation, that you was
to have performed on your eye I
know that it was successful and would
be pleased to hear of the result

By it is not to me in the letter you
you I would be pleased to hear from
you in a letter or by mail.

How you have felt the weather with
you then we are now are having
the cold weather and we are need of
a little more of it.
