

New York State Lunatic Asylum,

Utica, September 24 1874.

Dear Doctor.

Your letter with account of case is at hand. From your statement I am not led to infer any insanity in the case. There may be facts precedent which would throw further light upon it.

Insanity occurs during pregnancy. In regard to mania transitoria I do not believe in it. Disease does not ever and go in that way.

Very truly yours  
John P. Gray  
Dr Eugene Grieston  
Raleigh, N.C.
