

Kingville Sept 23. 1875

Dear Mother

The Card and Circular
you duly received. Thanks and found
it all went well.

I have just got
three of my best horses. It has been
wet here for 2 or three weeks but I preferred
to run between the horses on my heavy
beats & get while all around me have
rotted it.

I showed the picture Circular
to some of my friends here and
they advised me to make some arrangement
to get him here.

I have brought the thing over
and we will try any way to get it done
before it is too late. It is a very fine
one for the County.

The idea is that we have been
exploring a new Church at

fourteen or fifteen numbers. All this we
we have intended to get up a meeting
of the kind to meet the old constitution.

We partly made arrangement with
Mr. P. who went to work to hold a
musical concert and divide the proceeds
with us. His usual practice was to
offer to make some arrangement
with some one this winter.

"I think it would be very possible to
get all this and might be of some
advantage to him beside."

"I know the arrival would be
get out to any extent if the fee
was not too high."

"If he has any engagements near
here let him know what will be the best
time."

"Get me to know what your regular
times are and I will see how the time
fits if you object to the other arrangement."

"Politics are looking up here and the
Catholicism is ^{free} it is
I think have shown their hand to some extent
but October will tell you."
