Dear Sir What pledge

has you & your Colleague made your constituents as to adjournment of the Convention as soon as organized our candidates in this County for policies sake I suppose was willing if the Democrats would stop at it to go for Reducing the number of Judges of Supreme & Superior Courts

I here mention a thing to you we here have been thinking & talking of our prospects in the next Campaign in the Congressional District we are of the opinion that your chances for success is the best in the District as it is shaped at this time <sup>according to</sup> the manner that the Democrats formed the Districts, there should be at this time according to the popular vote for Delegates to the Convention 4 should be Republican Districts & 4 Democratic or if either should have 3 - it should be the Republicans if you should have it in your Power in the Convention would it not be Right to so form our

Districts as to secure ours Republican certain two or three below should be Republican I would be more than pleased to support you for Congres in our next Campaign another thing I believe would be Right to rearrange our Senatorial Districts so as to give equal justice to all, think of these things if you have not done so, it is thought that you Buxton & Bowman will have to lead the Republicans in the Convention

I hope you may have at least Delegates enough  
to keep the Democrats from doing any mischief  
& if you have the power to do as suggested before  
if I hope you will do so  
if Rodman is in the Convention you will find  
him I think with <sup>you</sup> on all points of importance  
to <sup>the</sup> Masses  
"

Yours Respectfully &c
