

Raleigh

Greenwich N. C. Sept 5th 75
Sunday 2. P. M.

My Darling; And you have not sent me a line yet! I have been so anxious to know how the land lies, but I suppose you could not tell, much and have been very busy. I shall expect a good long letter tomorrow unless you get your head in "the initials" and forget that you have a wife. - Until you go to bed. -

Nothing new has turned up here. No mail but the enclosed from Hubert which come this morning and also 2 or 3 from Farrell. You better write to Mr Buller to send the money to me if he gets it which I doubt.

I am surprised that there has been no more "Circulars" printed, as in Apl. Howard wrote that they were within 400 of their ~~total~~ 1000. The same sales have done nothing for it. If they advertise it anew and with the circular advertisement it may do some

things etc. He will hope so anyway -
The Dr had another hemorrhage, yes-
terday and is very low today. He will
sally undoubtedly but I think there
is little hope of his getting well.

Ladie has had to stay away from
them to day and has nearly worried me
to death. She has got the yinlet and
bored holes, she hammers and drives nails
and is just now in great distress, be-
cause I won't let her put on one of my
dresses to nurse her pillow baby in, as she
don't look like a mamma with a short
dress on. She has worried the kitten
until it has crept behind the fire screen
to escape her, and I tremble for what
she may do next. She is anxious for me
to tell you to bring her something -

Write me as often as you can and ad-
vise me the convention and come home

As -)
Penna
