My dear Husband,  
Your journal of yesterday read  
and so the "great Republican meeting" a-  
mounts to nothing at all! - Well, I am  
very sorry for you for it is a great dis-  
appointment but my dear, nil desperandum. It is the cause of Right and must  
be triumphant at the end. I hope the  
husband is not so threatening as when  
you wrote. I would like much to hear  
all about it, but have not good will  
enough toward Ball to see him  
about it. I heard the "Independents"  
would be of no value to you. It was  
a shrewd trick, in the Democrats to  
annihilate Cannon for President

If course he would do with them there  
He did not go as party, get the stock  
and I think him that way. It occurred to  
me she end would have justified the  
means. How long do you think you  
will stay now? I feel sorry to have  
you waste your time there when  
you can do us good but as you are  
in it now will have to make the best of  
it — No news anywhere. I have not  
heard from Mr Gregory and don't know  
how he is getting on. That sugar is  
common brown and I would not have  
brought it home if I had known it, but  
changed it for white. I will want to take  
the other articles on our account there.  
I have been hard pushed for money to get  
horse feed this week but have managed to  
get 10 Bushels at 50 to per Bush. by Benbow  
accommodating me a few days in advance.  
I was determined I would ask no one to trust me  
if they had to eat each other.  
The Dr. had another hemorrhage yesterday and  
is quite low. Mother is not very well today  
her bowels are troubling her, but hope it is nothing  
of consequence — Write as often as you can  
to Emma
