Chattanooga, Tenn. Sept 12th 71
Monday P.M. 2^o

My dear Husband,

Your letter and papers of yesterday read this morning. I am glad indeed to see a Daily Republican paper in Calicut. It looks as though the party did not mean to give up or if it must die, die hard. I looked for you to come up last night a little as I had no letter in the morning, but not enough to keep me awake. It was so cold that I died and I slept together and hugged each other as close. She enjoyed it immensely but I cannot see as much for myself. She was much in hopes Papa would not come home as she did not want to give up her bedfellow.

I think with you there must be something wrong in Howard's copyright acct, only 600, 20^o in six months when he wrote us in April they were on the last 400 of the 3rd thousand, and the same deficit had been in you. \$1100. If it is not

too much trouble, send me up the act by the next
mail as it would like much to see it. Did they
say anything about Mamelow? -

Did not go to church to day and am spending
the day very comfortably reading and writing
I have copied the "Doll Fox Song" and will en-
close in this. What are you going to do with it?

I see the News recognizes you as the leader of your
party in the Convention and pays you a comple-
ment on your eulogy on Graham. I could
not see the pertinence of the Seniors allu-
sion to the cockit bag delegate from Guilford? -

Do you think you can stay any time if you come
up on Thursday night? I will have those acts
copied to take with the other papers in the
Burn's case, if you go to Chatham. -

I met Judge Kerr on the street Friday, and
he was pleased to say that I had improved in looks
since he saw me several years ago. How fat
he has grown. I think Mr Gregory will be
at Chatham now are coming in before court
close here.

I read the paper with much
interest. They are going in for amendments
with they? I shall expect a letter in
the morning -
Yours
C. C. Curran
