Correspondence

Home Nov 2^d 1887:

My dear Judge I am your returned from from
Gallatin Mo. and was glad to hear from
you in the West.

I have been professionally very busy since
I left you, and have not seen my way
clear for writing about the state of af-
fairs as taken of. I am however
realizing the importance of making a statement
to give shape to a proper sentiment upon the
conducting of Congress, or if you please im-
mediately before it assembles. That Na-
tional Convention meets the 8th inst. and
I mean the 8th proximo, and the gang
will be streaming every limb to create a
stomped in the infanter of Blair. This
must be guarded against, & the question
is how much it be accomplished, the
time is short and it does seem to me that
unless you and I engage in the work it will
not be accomplished, Let me hear,
Kind regards to Mrs G. Am faithfully
Wm
