FACTORY AT NEWARK, N. J.

Foye File, Patented Dec. 16, 1878. Foye Index, Patented Sept. 1, 1874.
Rogers Postal Holder, File and Binder, Patented May 2, 1876.

Newark, N. J., Nov 18th 1887

Mr Albion W. Tourgee

Dear Sir

Yours of Nov 2nd has just been recd. Having been sent to me from Portland, the factory has been in Newark for the last 4 years. We are still manufacturing the Foye Letter file &c only on @ much larger scale than ever before. Our Cabinets of Letter files has increased over 100 per ch last year. Enclosed you will please find @ Circular with the different sizes of files, Filing Cases & Indexes. I would call your attention to our improved Filing Case, which does away with the old mode of binding, which we have discarded entirely. The great advantage of the Transfer Case is that you can refer at anytime to @ letter, Bill, or Receipt after it is filed away, if years afterwards & remove

it from the Case the same as from the file
& when done with it, replace it where
it belongs, they also preserve your papers
from dust & dirt. The Case is made of
wood, covered with marbled paper, & finished
like @ book on the back & has the appearance
of one when standing on the shelf. They have
two Springs attached to the lid that holds
the papers into their place, so that they
cannot be disarranged no matter ^{how} roughly
they are handled. We should be pleased
to have your order for whatever you may
require in our line.

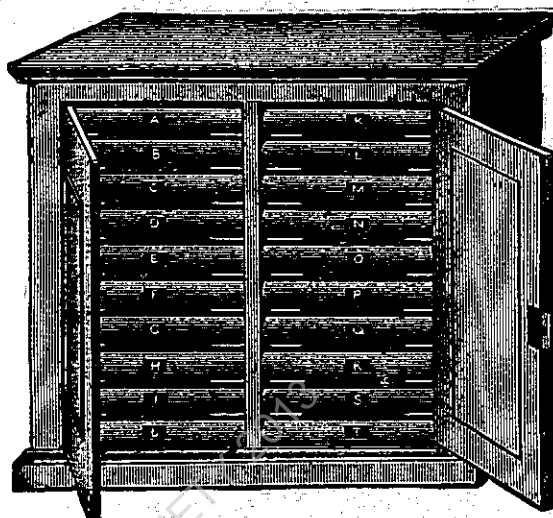

Truly Yours &
Chas. A. Gundacker, Jr.

P.S.

I have marked the two
sizes of files mostly used.

THE FOYE LETTER FILE.

ALWAYS READY!

20 FILE CABINET, WITH DOORS.

FILE PAT. DEC. 16, 1873. INDEX PAT. SEPT. 1, 1874. Price \$70 complete. Cabinets, all sizes, from \$11 upwards.

POINTS. READ AND OBSERVE.

The Foye Letter File is acknowledged to be the simplest and most complete FILE IN USE, possessing many important features not contained in any other file in the market.

One of these points is that you can operate the Foye Letter or Bill File with the arm as readily as with the hand, thus giving PERFECT FREEDOM of both hands to turn over more rapidly the papers contained therein, and remove the one you want without displacing the others.

Another feature in the Foye File is, it has a STRONG CLIP AND AUTOMATIC SPRINGS which holds all PAPERS, LARGE OR SMALL, FIRMLY, and you cannot spill the contents of your file, no matter how careless it is handled.

The Foye File possessing the advantages of the Clip, the Automatic Springs being able to OPERATE it with the ARM, having a COVER so that your PAPERS are as PRIVATE as your LEDGER, when EXPOSED on the DESK, in connection with the many other advantages it possesses, makes it beyond a question of doubt, the simplest, the easiest handled and MOST COMPLETE FILE EVER OFFERED TO THE PUBLIC.

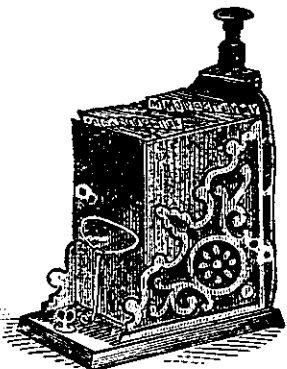

INDICES.

Our voweled combination Indexes for Cabinets for our Cabinet Files are simple and complete. We manufacture Special Indexes to suit any business, no matter how complicated it may be, that will systematize and simplify it.

To remove the Index when full, take out the staples on the end of the file, press the cover back and withdraw the volume, transfer it into the Filing Case. To replace another Index into the File, press the cover back with the left arm and press against the back of the Index with the fingers so that the staples will come in front of the back of the Index

TRANSFER CASES.

Our Improved Patent Transfer or Filing Cases, are without exception the best case ever offered for the filing away of PAPERS PERMANENTLY. They are made of wood, covered with marble paper, finished like a book on the back, have two SPRINGS attached to the lid that holds the papers into their place, so that they cannot become disarranged. The lid is securely fastened on three sides so that no dust can get into the papers.

Rogers Postal Holder.

9x11 FILES, \$2.25 each,	Per dozen, \$27.00	9x11 INDEXES, Per doz. \$3.50
