Dec 9th 1857.

Dear Mrs Donje

I have been so busi-
-ly employed that I am only ab-
-le now to know whether I em-
-vise any resolution to the mee-
-ing or your welcome note of
the 7th instanter or not, and
for fear that I am out I
enclose this note.

Be much be hopeful, as
the Judge and I always have fun,
and I talk with the best results.

The Society movements is going
all right, Chicago is good.

The Boring with Joe Munday at the
house started then die on Phil^a
thinking that the glorios that
Charles around Independence
Hall, and the music of the

old Bell would even then
drinking water, but they look
from their camp as some be-
fore the 7th process by which
Concentration will be made, I
will write later on.

Blaine is always following
out of time, and cannot get
back a departure in 1887.
I am with him in
gangs to the Judge.

Mr. Longue

Truly
Yours
J. M. D. S.
