him awfully!

The boy has counted so long that
I can send the proof. At the

Dear Judge:

I send you herewith proof of 89 from beginning to end, when I got yr. letter (or E. Henry's) early in the week. I notified Williams to have the plate proofs ready by Sat. (when Edgar Henry said you would be here) But Williams replied that the electrotypist (who was pulling the plate proofs) reported that that would be impossible.

On getting your note, (yesterday) that you would be here on Friday, I sent to Wms for page or galley proofs in any form, for you to go over.

Answer: Nothing.

This morning I gave him Hell. I enclose his reply, which came with the proofs.

It will depend on Tribune work whether I can see you tonight but I will do my best. May get up this p.m. H.W.B.H.
