

St. Louis,  
Sabbath Morning Reform Church

My Dear Judge Louisa

I cannot deny myself the pleasure of expressing to you my gratification at your re-inforcements every week and then, now at the present time when my "flocks" are Mrs. F. styles the flowers gently in and of your dash, and the study-Lovers show you deal,

I succeed in the task to keep me-actly the medicine you gave me and that I have death out to others.

The chair here from Springfield (Mass.) this week, and from Allen St. and another from Wisconsin. The Union State Central Com. met at St. Louis on the 22<sup>nd</sup>, and led by its members have asked me for suggestions, they are both Lincoln men, and men

I have never seen,

Kenia regards to Mrs J.

Send me more, if you can  
accompanied with any suggestions  
which I will surely adapt, if they  
be necessary.

I noticed that you said about  
later down.

When I read the L.D. volume of  
the 16<sup>th</sup> I imagined you had  
been around, or had "written",  
for I saw your own marks in  
it.

As I shall write

Yours faithfully
