#### INVENTORS,

After several years of experience, arrangement and study of a novel device for classifying subject matters of invention, we are enabled to readily refer any mechanical device to its appertaining class, and to institute search, as to its being anticipated, in any one of its component elements or features of construction; and therefore, we take the liberty of offering you our professional services, to accomplish this result. Our staff comprises expert engineers, able to examine the description you may send us, and competent to prepare specifications and claims equal to any other well established Patent Agency; also an experienced Solicitor of Patents, competent to pass upon the patentability of any invention intrusted to our care. We occupy an Office in Washington, near the Patent Office, under the management of an Ex-Patent Officer, of many years standing. Consequently, we are able to make preliminary Examinations in the Patent Office, quickly and practically. Our charges are reasonable, and are as follows:

**7 PATENT COPIES FOR ONE DOLLAR.**

UNITED STATES PATENT.

**7 PATENT COPIES FOR ONE DOLLAR.**

Total Costs,	-	-	-	-	-	-	\$55.00
--------------	---	---	---	---	---	---	---------

Payable as follows: \$15.00 (1st Gov. fee) on giving order.  
 " " 20.00 (our fee) on signing documents.  
 " " 20.00 (2d Gov. fee) after allowance of patent.

RULE OF PROCEEDURE.

First, send us rough sketch and description of your invention. We will examine into its patentability, and if there is a chance of procuring a patent for it, we will let you know free of cost. Should you decide to apply for a patent after our report, remit \$15.00 (First Gov. fee), and we will prepare all necessary documents, and send them to you to sign. Upon the return of documents signed, with our fee (\$20.00), we will immediately file the case in the Patent Office, and send you the official receipt thereof.

If your invention be new and practical, we will take it in hand and endeavor to effect a sale as soon as you have secured it.

We hope to hear from you soon, and to receive an order.

Respectfully yours,

*Singer & Ebner,*

Patent Attorneys.
