My dear Emma:-

I received the enclosed with your note. I don't like the contract; the items you enumerate are of no possible value to me - never can be. So I am shut off, it seems to me from any prospect of realizing any thing on the money I advanced. By the way you did not say anything about the money \$236. that Albion had from the small lot at the south. nor the money I advanced to him while here for a patent. However I have signed the contract, with a ~~mental~~ sort of mental protest, and

thereby relinquish any hope of
obtaining anything in the future
for this money. Now I do not
want you to feel hurt or grieved
over this. I have simply told you
how the matter looks to me.

Mr. Jarcki had no diamond to
replace the little one in Lodie's
fob but said he could put in a
pearl. I told him to do so.
and I will send the chain
to her tomorrow at Westfield.

In haste and love

Angie.
