

Rochester N.Y. Dec 19 '88

Judge Tounges's Letters to a King  
is a work ~~of great value~~ worthy to  
be studied with care by every Amer-  
ican citizen and especially by the  
young men who are just assuming  
the responsibilities of political  
life. Its style is terse clear and  
strong and its discussions cover  
the theoretical principles of our  
government together with their  
practical applications through  
party organization. The abuses  
to which political parties are  
liable are clearly pointed out  
while their legitimate functions  
are recognized. ~~We~~ know of  
no work so well adjusted to the

political necessities of young  
men of the coming generation
