My dear Wife:

I slept late last night and have just got out to get a draft which I enclose. I leave here at two o'clock and leave Linden at eight in the morning to return here. Shall stay here until Monday morning. Weather bright, clear and cold - about 10 below - but very pleasant. Presume I will hear from you at Linden but it will probably be only a day or two later than when I saw you and of course brief, as I know you must have been hurried.

Yours truly,  
Wm. Cullyford
