My Darling:

did not have a very good time last night. Hall stuffy audience queer etc. Beards & have a pretty bad cold which has been coming on for several days.

You have — as he says — a duplicate of Clayton's letter about the West Coast business. I had rather not go than be so completely at any man's mercy. I have given him the choice of two things

- 1 - Forty to 60 nights between Apt 15 and July coming to California and up to Washington for \$60, a night clear of rail-roads fares and commissions.
- 2 - 15 percent for some time when the net above expense and commis- sions is \$50. to \$60; 25 percent when it is above \$60. This to include Fall also if he desires.

I enclose draft for \$75 just as it was handed me.
