

FINE VIEWS of the LAKES and MOUNTAINS from all parts of the HOUSE

Burlington Vt. Feby 10th 1889

My dear wife:

I forgot to mail your letter yesterday as it will go out with this. Vermont is about as hard to get in and out of as Dakota. It is not distance that makes it remote but the Illinois Central R.R. of Vt. Had a splendid audience here and a fine time last night. A gentleman came around for me to go to church with him today but I got out of it — very well.

You had better come over to New York on Wednesday. I think I shall go direct to Mayville from Paterson. I do not see how I am to get my article done unless I do. I am

ply cannot do it in this spotted way
and it would be useless for me
to try to write with you at
Philadelphia. You know that as
well as I. I can leave Paterson at
9:45: and get home at 5 pm Friday. Take
5 pm train on Sunday to Dunkirk and
reach Hellsdale at 2:40 pm Monday.

This will give me two days for work.

It would be noon Friday before I
could reach Phila and I should have
to leave there at 11 am on Sunday.

I think I had better take my two
days at home, don't you?

If you get to the Everett, Home,
Wednesday
about 11, as you will by taking the 7:54
train from Phila. I will meet you in a
bout an hour and we can stay
until 4 on the next day. That seems
to me the best that can be done. The
article must be done somewhere as

other and I can see no other way.
 I got the mess here last night - a
 queer mess, isn't it? I think I am to
 remain here until 4.40 tomorrow. If
 so I will do a good bit on that in
 some shape before I leave.

Love to the beloved child.
 I don't believe Blaine is going to
 get in after all.

Yours

Albin.

The lecture matter from Willie came
 also - no, I see now they were
 both from you.
