My Dear Friend

Some time since I wrote you asking for your influence with the incoming administration and as I have not had any reply am fearful it did not reach you.

The place I want is Post Office Inspector. I am content to fill the office and my friends are going to recommend me for the place and I want letters of recommendation from influential men like yourself and anything you will do for me will be highly appreciated by myself family and friends. If convenient would like to have your views at once.

Your Friend
 W. W. Blaylock
