Dear Sir,

I address you this time, as I believe you are to be back soon now. It is about your story of *Pectalus Primi*. Our readers were much interested in it. They are now simply disgusted. We are catching it on all sides. We could not do a worse thing than speak of your giving us another next Fall, unless it is to be your sequel & a statement to that effect, with explanation now. Please let me hear from you in the matter soon.

Yours truly
H. S. Harrison.
