

Monday Morning
Apr - 1st 1889 -

My dear wife: We got up and had breakfast early this morning as Mary Ann was going away. She is very anxious to see you and will telegraph you when she returns so you can meet her at the station. She is a real whole & some, bright, thoughtful woman.

I am going to finish the story today so it can get off on the mail tomorrow morning.

You must be very careful of your health there

in Phila - you and Lodie. Remember there is now an epidemic of Typhoid there which is attracting the attention of the whole country except Philadelphia. Schuylkill water and general filthiness is the cause.

As soon as it comes worse weather you will have to leave there. Philadelphia may kill their own children as much as they choose but we haven't any to spare.

Bah! how I hate the execrable hypocrisy of this home of modern Phariseism! I esteem an honest red-headed man

dear a thousand times
more than a counting
lying hypocrite who runs
Sunday schools and chari-
ties and then poisons
life — child life and poor
life with infected water
and filtered sewage and
sings "Praise God from
whom all blessings flow!"
in the softened light of stained
glass windows.

Yours

Albion
