

Theremin

April 9<sup>th</sup> 1857

My dear wife: I enclose you two  
letters from Father. You see he is in  
a great deal of trouble. I have written  
him that I will send him the \$125.  
by April 25<sup>th</sup>. If I could get the check  
for the other happiness I would send  
it to him.

I have had some wire cutting  
put across from office to house and  
from fence to back part of kitchen and  
so made a good safe room, and  
a house for the dog - where he can  
do no harm, run about to his heart's  
content and yet not get out.  
Everybody here protested against it  
and every one is now wonder-  
ing why it was not thought  
of before. I am going to finish, if I  
can, the last happiness today. I was  
interrupted yesterday by the necessity  
of hunting up a ~~lot~~ lot of facts.

needed to know.

If you can spare the money  
send me Prof. Bryce's "American  
Commonwealth". I want it pretty  
badly. Lodie was mistaken in think-  
ing I wanted a picture. I only  
wanted a hint for the tableau  
avant. I don't think she can  
improve the suggestion I gave  
for the table. A better pictorial  
idea might no doubt be  
suggested, but the audience  
will want to see every  
face and everyone will

want his face to show.

Go to Buffalo for two lec-  
tures on Friday, Fri & Sat  
at 4 p.m. -

Shall return on Sat night  
and leave for Lake Linden  
on Tuesday morning at 7 a.m.  
arriving Houghton at 6.55.  
on Wednesday afternoon.

I haven't yet heard with cer-  
tainty about Cedar Falls.

Love to Lodie

Ever yours

Albin
