A. W. Counce

Dear Sir,

I was not informed as I understood it was to be at the time when you were in Chicago last month that I might see you about the practicability of changing the story of the coming fall to some kind of a continuation of Pictorial as was intimated you were preparing. Probably on the whole it will be more satisfactory all around to carry out the plan originally proposed.

Will you then please send me an outline that I can use in any effort I may make to get the expense divided by equitate as was permitted.

Yours truly
H. S. Harrison.
