Dear Sir

What is the prospect of the
"Water Motor" bringing us some
money in the near future.

We have sent you
many times we feel the loss
or need of the money - in our
business which is now tied
up - If the "Water Motor"
is in "statu quo" is there
any other source from which
you can help us out

Please let us hear from
you at an early day

And much oblige

Yours truly,
Miller & Flinn
