

My Dear friend
I have not
written as I wanted to
hear through your kind-
ness of Miss Emily —
Moreover the flow of
two months ago to — had
left me physically and
at times I think mentally
almost incapacitated.
I may improve! I doubt
this world can be done

1/2 mi marble, with the
poor facilities at hand, with
the aid of her clothing I am
some times hopeful but
I learn numerous measures
and attitudes needed,
the only measures I have
are twenty - six inches
waist, forty - four in height,
ten and one half neck
I would now like to learn
could she be executed
in tapestry? Could I learn
the stitch of the old

3. Gobelins tapestry I would
rather have found one
copy her life-size or
try to copy her myself
(if able) this belongs no
doubt to Ant. Reedwork
and I should be in New
York if out in Europe
to inquire on this point,
When in New York I do
admired specimens of
old tapestry I found in
Hester Bros + elsewhere
(George + son) as I was looking

4 for pieces we needed
for the house. Of course
Gobelin Tapestries is of the
past but the style, color,
and style might be copied
for my purpose. If with
too much trouble Mrs
Fouquier would you be
good enough to consult
on these questions some
artists you may sometime
have an opportunity in
visiting New York or Phila.
delphia. We have expected

5 Todis picture and
Thank you I am very
sorry we missed you
when we were so
near I should be much
pleased to see you
all I am loved. I
had the type-written copy
from the scrap book
the address of Mrs. Donnell
I had said to you I
would send finding a
news-paper could not

to be obtained. I thank
you for any trouble you
may take for me in
making these inquiries.
I am far from Anti-
Schools, Lectors and all
things of the kind, though
some friends are helping
me and I have written
in several directions later
we may go to New York

With much love from
me and my (she has not gone home
yet I am so lonely) Yours truly
Kate B. D.
