DAVID F. DAY.

LE ROY PARKER.

Buffalo, August 12, 1889.

My Dear Sir:-

As the time is approaching for the opening of the Buffalo Law School, it is desirable that each one of the instructors should send notice of any change which they may wish to make in respect to their subject or of the time of delivering their lectures. You will greatly aid me in arranging the course of instruction for the ensuing year, if you will let me know at what time of the year you will prefer to give your lectures and also what hour of the day, either morning or afternoon, would be most convenient for you. I earnestly hope that you will be able to arrange for your lectures in such a way that they may be given as regularly as is possible, consistent with your professional duties. I would also suggest that if you know of any student or students who are thinking of studying law, that you would use your influence to induce them to enter the law school. I am satisfied that by an earnest effort on the part of those connected with the law school a large attendance may be secured for the coming year and an increased interest developed in the school.

Yours truly,

Le Roy Parker
Vice Dean
