

have beautiful weather and
much warmer than
when you "bivouached" on
Manitou Lake. A general
much needed rain fell
last Thursday freshening
everything and we could
enjoy it without reserve
for that precious crop
of oats was safely stored.

We have been really
gay here the past week
so much so, the Judge
might have found it
necessary to seek greater
seclusion had he been
here. A severe wind storm
drove in a large fleet of
ice to harbor. The
Charlton came in for
four passengers. The
revenue cutter Alcedo

Johnson came in
bringing the Suspect
7 Station. Saturday
Evening a tug came up
to our dock and brought
a friend to spend the
night with us. who left
again this morning.

The Charlton came
also this morning with
Mr Hoyie and two
additional farm hands
much to Mr Brudenom's
relief. quite a chapter
7 events for us.

We will be very
glad to hear from you
whenever you can find
time to think of us
the "Islanders" one and
all wish to be remembered
to yourself and family.

I do not forget to include

Cidy-

Very Truly

Yours

Stella Plate.
