LUMBER AND LATH.

Muskegon, Mich. Sept. 18 1889

Hon. Albion W. Tourgee
Mayville N.Y.

Sir: Our Lecture Course Committee have made a contract with the Hayton Lyceum Bureau of Chicago for you to give one of your lectures in the Open House to our people on Nov. 8th next. We are not thoroughly clear in our own minds which one of the 5 subjects announced in their circular sent us we ought to ask you to render in order to give the greatest satisfaction. A greater familiarity with the substance of each or a knowledge of the preference of the lecturer himself, would help us to determine the question in hand. And if you will kindly respond to the above inquiry you will greatly oblige our Committee.

Yours Truly,
Robt. H. Mann
Chairman
