

Wuskeget Oct. 24/89
Hon. Albin F. Jouge
Mayville N.Y.

Dear Sir:

Have you an
Electro type cut of yourself
that you could furnish
our Committee for News-
paper advertisement
the name as appears
upon the Circulars we
received from the Clayton
Lyceum Bureau.

Would be much
obliged if you could
send one to us at once.

Yours Truly
Robt. K. Mann.

Dr Sir:

I have, I thank God, never owned such a thing as an electrolyte of myself. My son has a curvature which he sends out on his pink circles which resembles much most as much as a sick wife & always wonder that the combination of cut and circles does not produce an incurable disease in the tubercles - I presume he might furnish you something of the kind as if he curvator at a curvatory knight boy might be able to whittle out as good an one from a cedar knot for about fifty cents, which could be used after words for a potent medicine advertisement.
