DEVOTED TO THE INTERESTS
OF BRUCEVILLE AND SURROUNDING COUNTRY.

Bruceville, Texas, Dec 21 1885

Judge Albion W. Touzee
Mayville N.Y. Kind Sir, I mail
you some news paper clippings they speak
for themselves. Of democracy in the South does
not mean secession & secession democracy then
appearances are deceitful indeed. Your bill
to be submitted to congress instead of the Blair
educational bill is a good thing I think & I
have had several teachers to express them-
selves as pleased with it. We like the Presidents
message very well but would have liked it
better if he had have come out in favor of
free and unlimited coinage of silver. We
or the people here, seem to favor repealing
internal revenue from tobacco. I hope the
acts of Congress will do what the republican
platform declared they would do if elected. We
are ripe here for a straight Republican tide
not that we can elect our men right now or
soon but we can gain all the time but it does

seem as if the present administration had joined hands with the democrats to exterminate the 80 or 90 thousand men that stand by the republican banner in Texas every year, that we have an election. They at Washington have at Marlin Texas appointed a red hat democrat and assistant editor of a free trade democratic paper Post Master over a man that is this mans peer socially morally mentally and every other ^{way} that were the blue and has been a staunch republican every ⁱⁿ since the war and the dems. are exultant over the matter, and just about such treatment as this is what we are receiving on every corner. It does seem that the democrats should be treated in the same way that they treat us. I sent you some time ^{ago} ^{ago} Mr Ethridges letter. Resp

G. B. Harris
