

Col. Le Roy Parker.

(380 Main St Buffalo N.Y.)

My dear Sir: Your letter about the Law School has been under a pile of letters I could scarcely see over, which awaited my return from the first vacation in twenty years, and I have but this moment got down to it. It is my intention to elaborate my lectures this year and take a week some time in the Spring for their delivery. I will make them more popular, too, and give each one a specific title as to drawn in from the outside for the benefit of the school, if you like the idea.

I have already referred quite a number of students to the school and hope it may have the prosperity the self-denial of the Buffalo have so richly merits.

Sincerely Yours

---
