New York, Jan'y 31 1890.

My dear Tourgee

Your favor of the
28th at hand with sug-
gestion for binding.

I do not know as
this plan is practicable
for us and if it should
be whether this style of
binding would make an
attractive looking volume

However we will
experiment with it a little
before we really bind it

that we may know just
what the results will be

Yours truly
