Judge Albion W George Maple  
Dear Sir

I take the liberty to write to you because you are reported as saying there is hardly anything in contemporary politics that has seemed so horrible as the assumption of the W. C. T. U National platform pronouncing in favor of excluding the colored man from suffrage. Please tell me what article or statement you refer to as I have read the platform over and over and can find nothing that applies to the black man that does not apply to the white man or any other color. Respectfully

S. D. Langhrey
