

And hundreds of thousands wd go west & south.
The savage Indians wd be civilized. Indian wars
wd cease, And Indian Territories wd soon be
asking for statehood with more of African than of Indian
blood in it. But it wd come as an Indian State &
with its Indian name. The word Negro, wd cease.
And the stigma of slavery wd cease with them it.
Meantime African Nam wd be rising in dig-
nity, and would be maintaining diplomatic re-
lations with the White man as his equal.

This is the beneficent as a ^{beneficial} path to ^{liberty} be saved
Black, White & Red, in which we may get
from the Black man's Gov't, good or bad, which
will surely come to us as soon as Nam with
an able leader shall, again hold the balance
power between parties. And the retribution
will be just if we are not generous enough
fully to cancel our debt to him for two
centuries of unpaid toil & for 4 years of bloody
war. Mr. Article in the Forum, reminds me of my long
foreboding of danger to our boasted White Man's Gov't, and I heartily
joined them, meaning to ask of you an early article in the
Forum, which my heart takes on the Negro Problem, and one also on
the issue of the Alphabet. You have access to the public mind, and
your gifts far may yet save our Nation from a civil war, full of
dis, far more dread than our late civil war, full of
reign of Caucasian Rule. The judge of all the earth will do
right. And retribution for wrong is just as sure as reaper's right.
except when the wrongdoer attempts to perjure himself. The
wrong. Our Rules should pardon the pseudonym, or give me an other-
name. Then need a far-reaching, most generous, & can
treatism in settling the negro question. Can't you help them? It can
be settled I think to the lasting benefit of all races, Red, White, Black, Brown, & Yellow
and thus to Divine acceptance.

I wish you wd read my printed Circulars & recommend the
Reform they seek. The word wd help it much. If not, please
press them on to some one else, Ruler or Citizen. Greatly is the
reform needed. And enemies wd be its benefit to all classes,
but especially to the illiterate Blacks. Rulers (M-C's) ac-
knowledge its need & its rightness. But I belong. They say
to the people... Not to us. Let their Example in right, and the reform
is the sole support of the wrong. Make that Example right, and the people
is accomplished. That is all I ask of them. And does not it belong
to Rulers to cease an acknowledged wrong, hurting the people,
& begin the acknowledged right that wd immensely help them?
Begging help to explode this silly & governmentless
objection, I remain
With great Esteem,
Matthews M. Campbell
