WALTER T. WILSON,

Mr. A. W. Tourgee,  
Mayville, N. Y.

Dear sir:

We express you to-day a Graphophone and sixty-five cylinders. We enclose you instruction sheet, and believe you will have no trouble in fully understanding the workings of the machine. Should anything bother you, let us know the trouble and we will set you straight.

Unpack the machine very carefully, as the recording and reproducing needles are packed in such a way as to require delicate handling in their adjustment for use.

Yours very truly,

(1 enclosure.)
